

RON KIM

UI/UX Designer

UI/UX Designer with experience designing and delivering digital experiences for large-scale federal platforms at IBM, supporting agencies including FEMA, GSA, and the Department of Veterans Affairs. Skilled at translating complex workflows and data-heavy systems into user friendly design with a strong foundation in visual design and a focus on compliance with USWDS and Section 508 standards. Passionate about creating experiences that are not only functional, but meaningful for the people who use them.

WORK EXPERIENCE

IBM Services UI/UX Designer

April 2017 - Present

Delivered design solutions across federal agencies including FEMA, GSA, and the Department of Veterans Affairs.

- **Client: Federal Emergency Management Agency (FEMA)**
 - Designed and streamlined data-heavy workflows for FEMA Risk Analysis platforms, transforming fragmented processes into modern, intuitive experiences that reduced user friction and improved operational clarity
 - Led UX modernization efforts across FEMA platforms, including interactive maps, dashboards, and request systems, collaborating with cross-functional stakeholders and building scalable design systems aligned with USWDS standards
- **Client: Department of Veterans Affairs (VA)**
 - Served as the sole designer on a cross-functional team to design a Veteran benefits submission platform, owning UX from wireframing through final design specs
 - Simplified complex, multi-step benefit-claiming workflows for a diverse user base, including users with limited digital access or experience, by breaking tasks into manageable steps and embedding contextual guidance throughout
- **Client: General Services Administration (GSA)**
 - Delivered end-to-end visual designs for SAM.gov, a federal procurement platform serving 500,000+ entities, producing UI assets across desktop and mobile in compliance with Section 508 accessibility standards
 - Built and maintained a standardized component library of UI/UX elements across SAM systems, ensuring design consistency, reducing ambiguity, and improving accessibility at scale

SKILLS

- Figma
- Interaction Design
- Visual Design
- Prototyping
- Wireframing
- Design System
- Responsive design
- Adobe Creative Suite
- Front-end Development
(Foundational)

EDUCATION

School of Visual Arts (SVA)

New York, NY

Design, BFA

Bluetext Visual Designer

September 2016 - April 2017

Designed web experiences for diverse clients across multiple industries, translating brand identities into visually compelling, user-friendly digital interfaces
